ANNUAL REPORT, 1903

---

TORONTO, *January 28th, 1904.*

*To the Members of the Toronto Public Library Board :*

The past year has been made memorable to us by two events, the first causing a deep sense of sorrow and regret ; the other, entirely different in kind, producing great satisfaction to the members of this Board as well as to many other citizens engaged or interested in Library work.

Early in the year we lost by death His Honor Judge McDougall, for eleven years a member of this Board and during four terms its chairman. Amid the cares of an active and busy life, His Honor was always to be found in his place at the monthly meetings taking a deep interest in everything pertaining to our work. His great ability and long experience combined to make him a most valuable member of the Library Board. It is but a slight tribute to his memory to say, that in the death of Judge McDougall, Toronto and the country at large, has lost a very able, industrious and painstaking public servant.

The other event, which, owing to its far-reaching importance to the Library, deserves a more extended reference, was the generous offer received early in the year from Mr. Andrew Carnegie of \$350,000 for a new Central Library building and three branch buildings in Toronto upon condition that the city should guarantee, by resolution, to support the Libraries at a cost of not less than \$35,000 per year, and provide suitable sites for the buildings. The City Council was at once notified of the offer and the condition upon which it was made, and on February 13th the Library Board passed a resolution expressing its approval of the offer and requesting the City Council to deal with the matter as soon as

possible. The question came up for consideration by the City Council on February 23rd, when a resolution was passed accepting the offer and agreeing to comply with the condition imposed.

The question then arose as to the location of the main Central Library. This was dealt with by our Board on March 13th, when a resolution was passed recommending the selection of a site in the district north of Elm and St. Patrick Streets, and between Yonge Street and Spadina Avenue. This conclusion was not reached without long and careful consideration. It was quite apparent to each member of the Board that it would be decidedly against the public interest and a hindrance to the future usefulness of the Library to have the main building erected upon the present site. The Board being unanimous in that, the question arose whether the new building should be placed in what is called an up-town district such as College Street, or in the down-town business district. Each member of the Board, I am convinced, looked at this question solely with the view of having the main building located in a district where the citizens would be best served, having regard to the future growth of the City and to the increasing importance of the Reference Library as well as the convenience of those who use the Circulating Library. It seemed to us that the arguments in favor of an up-town site far outweighed anything that could be said in favor of the erection of the building down town, and the Board was therefore unanimous in the decision arrived at. We prepared a special memorandum showing what we conceived to be the advantages of having the Central Library in the district above outlined, and sent a deputation to address the City Council on the subject, with the hope that the views and opinions of those who have actual charge of the Library, and who, for that reason, ought to have greater knowledge of its needs and requirements, would be of some assistance to the Council in arriving at a conclusion. The City Council did not deal with the question of sites until October, when the Property Committee recommended that the main building should be erected somewhere in the vicinity of Queen's Avenue and College Street, and that it should accommodate the Reference Library and one of the branches of the Circulating Library, and that the main Circulating Library should be down town on the present site. When this report came before the Board of Control the recommendation of the Property Committee was

rejected and a new recommendation made that the Reference and Circulating Libraries should be kept together on a down town site. This report came up for discussion in the Council on October 19th when, after a long debate, the recommendation of the Board of Control was upheld and a decision come to that the main building should be erected down-town.

The Property Committee again took up the question of the new site, and on December 8th recommended that the property on Church Street, north of the present Library, having a frontage of ninety-one feet two inches on Church Street by a depth of eighty-five feet on Lombard Street should be purchased, provided the same could be procured at a price satisfactory to the Commissioner of Assessment and Property and subject to the ratepayers, qualified to vote on money by-laws, approving of the expenditure. This recommendation came before the Board of Control on December 14th, when that Board unanimously referred back the report of the Property Committee. This report of the Board of Control passed the Council without any discussion. Nothing has since been done. The position of the matter at present is this, that while the Council has passed a general resolution in favor of the main building being erected in the business part of the City, no site has yet been selected in that district, and no indication of the location given except the one above referred to that it should not be built on the present site. The Library Board is still unanimously of the opinion that the main building should go up-town, and it is hoped that the new Council, just elected, will, in its wisdom, reverse the decision come to last year and concur with the views of our Board. In any event, it is earnestly to be desired that the Council will deal with the matter and reach a conclusion without delay. The present building has become so over-crowded that the shelf accommodation in both Circulating and Reference Libraries is completely exhausted, and many valuable works in the Reference Library have to be placed on the floor. Unless there is a prospect of the early construction of the new buildings, it will be the duty of the next year's Board to take into consideration the question of overhauling and making alterations in the present building to permit of increased accommodation until, in the fullness of time, the new buildings are ready for occupation.

It became necessary during the year, owing to Mr. Carnegie's

gift, to obtain legislation enabling the City to carry out the conditions imposed. We accordingly applied for and obtained, with the consent and approval of the City authorities, several important amendments to the Public Libraries Act as affecting the City of Toronto.

The circulation of books during the year shows a decrease, due, no doubt, to the causes outlined in former Annual Reports. It is satisfactory to know, however, that the circulation for December shows a moderate increase, so that we have reason to hope that from this time forward the book circulation will at least hold its own, and, in due course, largely increase.

The accounts of the Library have been audited by the proper officers, and the usual statements of receipts and expenditures and of assets and liabilities are appended.

It is with pleasure that I am able to state that the Chief Librarian, Secretary-Treasurer, the Assistants and Employees of the Library have all fulfilled their duties to the entire satisfaction of the Board.

J. H. DENTON,  
*Chairman.*
